Spring is here! Don't Let Allergies Keep You Inside!

Knowing When It's Time for Testing!

By: Jennifer Dumke - SF Woman Magazine

The word allergy is synonymous with hypersensitivity. Being allergic basically means that your immune system works too well - and you react to substances in the environment that don't affect others. Allergies can cause a myriad of problems, such as nasal congestion, fatigue, itchy and watery eyes, runny nose and recurring sinus infections.

Common allergens include dust mites, molds and pollens such as grass, ragweed and trees. People may also have sensitivities to certain foods, bacteria, animal dander, insects, chemicals and dyes. Sensitivity or allergic reactions can develop after repeated exposure to a substance. Often individuals may also be sensitive to more than one allergen and can develop new sensitivities at any time.

PHYSICIAN SPOTLIGHT!

Let's get to know Dr. Scott!

Tell us where you grew up and a little about your home-town and family.

I grew up one hour away from Vancouver in the raspberry capital of Canada so my summer jobs included picking berries and working on the farm. My dad was a teacher and my mother was a nurse, but I spent most of my summers working on my uncle's farm. I have two younger sisters and I met my wife in 8th grade.

supporting my three children in their activities and I've been trying to learn golf.

What's your favorite vacation spot?

I think my favorite vacation place is Arizona but I also like Lake Louise in the Canadian Rockies.

How did you decide to become a doctor and what's the best part of your job at Midwest Ear, Nose & Throat?

I became a physician because my mother told me I should.. and then after that my marks were good and I kept passing all the exams. I have enjoyed being a physician and a surgeon because ENT is a very nice blend of both - it's been a privilege to help my patients. I really appreciate the partners and staff at Midwest ENT. The quality of the people I work with is exceptional!

What are your hobbies and favorite things to do?

When I was a young man sports and church were my main activities and I played basketball and volleyball in high school and basketball in college, which allowed me to travel all over Canada. As an adult I picked up hockey, which isn't really a sport in Canada - it's more of a religious experience. I have some signed NHL jerseys framed in my exam rooms. For the last years my activists have revolved around

We have exciting news!
